Commissioner Jane E. Henney
Parklawn Building, Rm. 14-71
5600 Fishers Lane
Rockville, MD 20857

Madam:

I am sending this message to urge you to ban the use of medically useful antibiotics in animal feed. I believe that over time bacteria can become resistant to antibiotics fed to animals. I also believe that physicians then cannot treat life-threatening bacterial infections in humans. That is why I support the petition by CSPI to ban medically useful antibiotics in animal feed.

Thank you.

Tim Ayres
